

Key Skills

Lead the team to build scalable solutions and drive the **collaborate** with the **Product** and **QC** team and driving execution starting from requirement gathering, deployment and post production activity.
FinTech, Food Tech, E-commerce, Recruitment Solutions
java, springboot, AWS, Elasticsearch, Microservice architecture, phalcon, Kafka, mysql, mongo

Experience

Tech Lead SDE-III – Zee5 (Zee Entertainment Enterprises)

Nov 2021 → Present

java, Fintech, UPI, PG, Elasticsearch, solr, maven, spring-boot, nginx, docker, git, apache-kafka, AWS, mysql, sharding

I Majorly worked on the **Payment Integration, UPI, PCI DSS and code scan** to maintain the secure Infra for user payments. Due to this we able to achieve a seamless payment experience to the user without any glitch.

Also am responsible for developing the Zee5 Application backend **CMS and Middleware Service** that is being used to store the data chosen and uploaded by our Content Team. It is simple and easy to use a new-age CMS solution on the cloud. It automates the **Live Streaming** process, right from upload to stream on Zee5 Mobile and Web Platform. It gives the user a seamless experience for streaming on OTT.

Lead Engineer Technology Naukri.com – Infoedge India Ltd.

Dec 2017 → 2021

java, apache, maven, spring-boot, nginx, docker, git, php, redis, memcached, apache-kafka, kafka-consumer-api, mysql, elasticsearch, sharding

I am responsible for developing the Naukri RMS that is simple and easy to use a new-age recruitment solution, in the cloud. It automates the hiring process, right from requisition to offer for any Enterprise or consultant.

Mainly worked on the Reports and Email Poller module in RMS, an essential analytical tool that gives solid insights into the recruitment process performance and individual performance of Recruiter, Requirement.

Software Engineer – Zee Entertainment Enterprises

Sep 2016 → Nov 2017

php, angular, postgresql, rest, phalcon, amazon-web-services, cordova, html, jquery, mysql, apache, git, mongodb, amazon-sqs, aws-lambda, amazon-ec2, amazon-s3, amazon-rds

1) **GORB** - gorb.in a Foot Tech.

I worked on developing various methods/functions and creating and executing queries. Migrated data from MySQL to postgres. Worked on reconciliation system of the product. Created various reports using API for the same.

2) **Livingfoodz.com** Tech - PHP, Placon MVC, Angular, MongoDB, AWS, Linux.

Senior Executive - Technology – Askme.Com

Dec 2014 → Sep 2016

php, mysql, redis, apache, nginx, amazon-web-services, migration, database, nosql, triggers, git, svn, opencart, slim, python

Generated new development deals for a E-commerce development company that focuses on multi-seller single product projects, including market analysis.

Comprehensive database management and migrate the real time changes using Mysql and Redis. Many other Database level optimizations and cron optimization are being done and using redis at a very high speed.

Software Engineer (LAMP) – Incaendo Technologies

Apr 2013 → Dec 2014

php, mysql, apache, html, jquery, memcached, css, model-view-controller

experience includes Web technology and API Integration work with Incaendo Technology New Delhi. In that we launch a platform for **domino's** so that they can provide API to their B2B Partners like FoodPanda and Tasty Khana".

Education

B. tech – Uttar Pradesh Technical University

Aug 2008 → Jun 2012

I completed B Tech in Information Technology as my graduate degree. I enjoyed it very much and along with the studies I also participate in extra curricular activities.

Activities and Societies:

- **Volunteered in two days International Conference** on "Recent Trends in Management, Technology & Environment" held on 28-29 November 2009 at our college.
- **5 days camp 'MANTHAN'** in IIT Roorkee organised by SPIC-MAKAY
- **Event** organiser in all school and college annual day functions and other technical events
